Relevant experience

- She is an expert in mining law with 30 years extensive experience advising financing institutions and companies in complex mining and energy transactions in Argentina, having repeatedly represented lenders in all mining project finance taken place in the country. In recent years Florencia has oriented her practice to the social aspects of the extractive industries as well and has been able to include these views in complex transactions and negotiations.
- She is an active member of the International Bar Association, where she held the position of Chair of the Mining Law Committee (2014-2015), she is currently Vice Chair of Seeril (Section of energy, environment, natural resources and infrastructure law).
- She was Visiting Professor at Denver University, Colorado, USA, and she also taught at the School of Law for Public Officers in Argentina. She is currently a graduate degree professor at the Austral University (Argentina), the Universidad Católica de Cuyo (Argentina), and the Universidad Católica Argentina.
